REBPLASTER

Plastering Compound

PRODUCT DESCRIPTION

This plastering compound is a synthetic emulsion of high solid content with good adhesive qualities. The adhesive eliminates costly preparation of smooth surfaces (prior to rendering, plastering or topping) as hacking, sparrow picking, scratching or joint raking is not required to ensure bonding.

USES & APPLICATIONS

REBPLASTER is used as a bonding agent to bond cement or acoustic plasters, gypsum plasters, cement render, or topping, to smooth surface of brick, concrete, masonry, fiber, gyprock, etc.

As a bonding agent, it greatly reduces the possibility of the drumming of cement renders and topping, by providing a permanent key. In addition, the emulsion tends to seal the surface to be rendered or topped, thus restricting water loss by suction. Consequently, the render or topping gains strength and quality by hydration.

REBPLASTER is not recommended for use in permanently wet locations. Do not apply over kalsomine, lime wash, paint or water-soluble coatings before washing and/or wire brushing.

INSTALLATION PROCEDURE

Surface Preparation

The surface must be clean and dry. Remove paints, oil and dirt with the use of a steel brush.

Application

Stir well before using REBPLASTER. Apply the compound using a brush, roller or spray. Do not allow puddles to form.

RENDERS AND PLASTERS:

All surfaces, (as specified) to be rendered/plastered, shall be clean and sound before application of a liberal coat. Allow to dry to a tacky condition before applying rend or plaster, the first coat of which will not exceed 1/2" thickness.

CEMENT TOPPINGS:

All surfaces (as specified) to be topped, shall be clean and sound before application of a first coat of mixture consisting of one (1) part REBPLASTER bonding agent and clean water. Allow to dry thoroughly then apply a second coat of REBPLASTER. Apply topping while still tacky.

COVERAGE & PACKAGING

COVERAGE: One (1) gallon will cover approximately 30 square meters.

PACKAGING: One (1) gallon plastic

MAIN OFFICE: Unit 2B Magara Townhomes. Sierra Madre cor. Esteban Sts. Mandaluyong City, Philippines **TEL NOS.:** 531.4654 to 55 **FAX NO.:** (632) 531.2768
